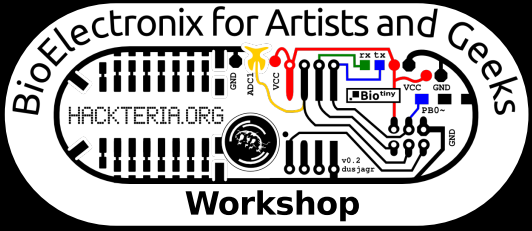
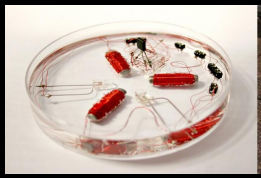
HACKTERIA.ORG

Open Source Biological Art



7, 12, 21 Nov 2012, 18h - 23h, BioTehna Lab, Kiberpipa, LJ

Collaborative workshop on electronic experimentation at the digital-biological interface, introduction into BioElectronix, Do-it-Yourself methods, cheap Bio-Arduino, biosensing/actuating, DIY biolab. During three evening sessions we will go step-by step through these topics. The workshop is open for beginners.



BioTehna Laboratory, Kersnikova 4/6, Ljubljana, Slovenia

BioTehna, a collaboration of hackteria | Open Source Biological Art and Kaplica Gallery. BioTehna is a platform for interdisciplinary research on life sciences and a series of workshops for youngsters, students, artists and geeks, each mentored by expert/s in a specific scientific field. Create and research with us!
